Large Bobbin

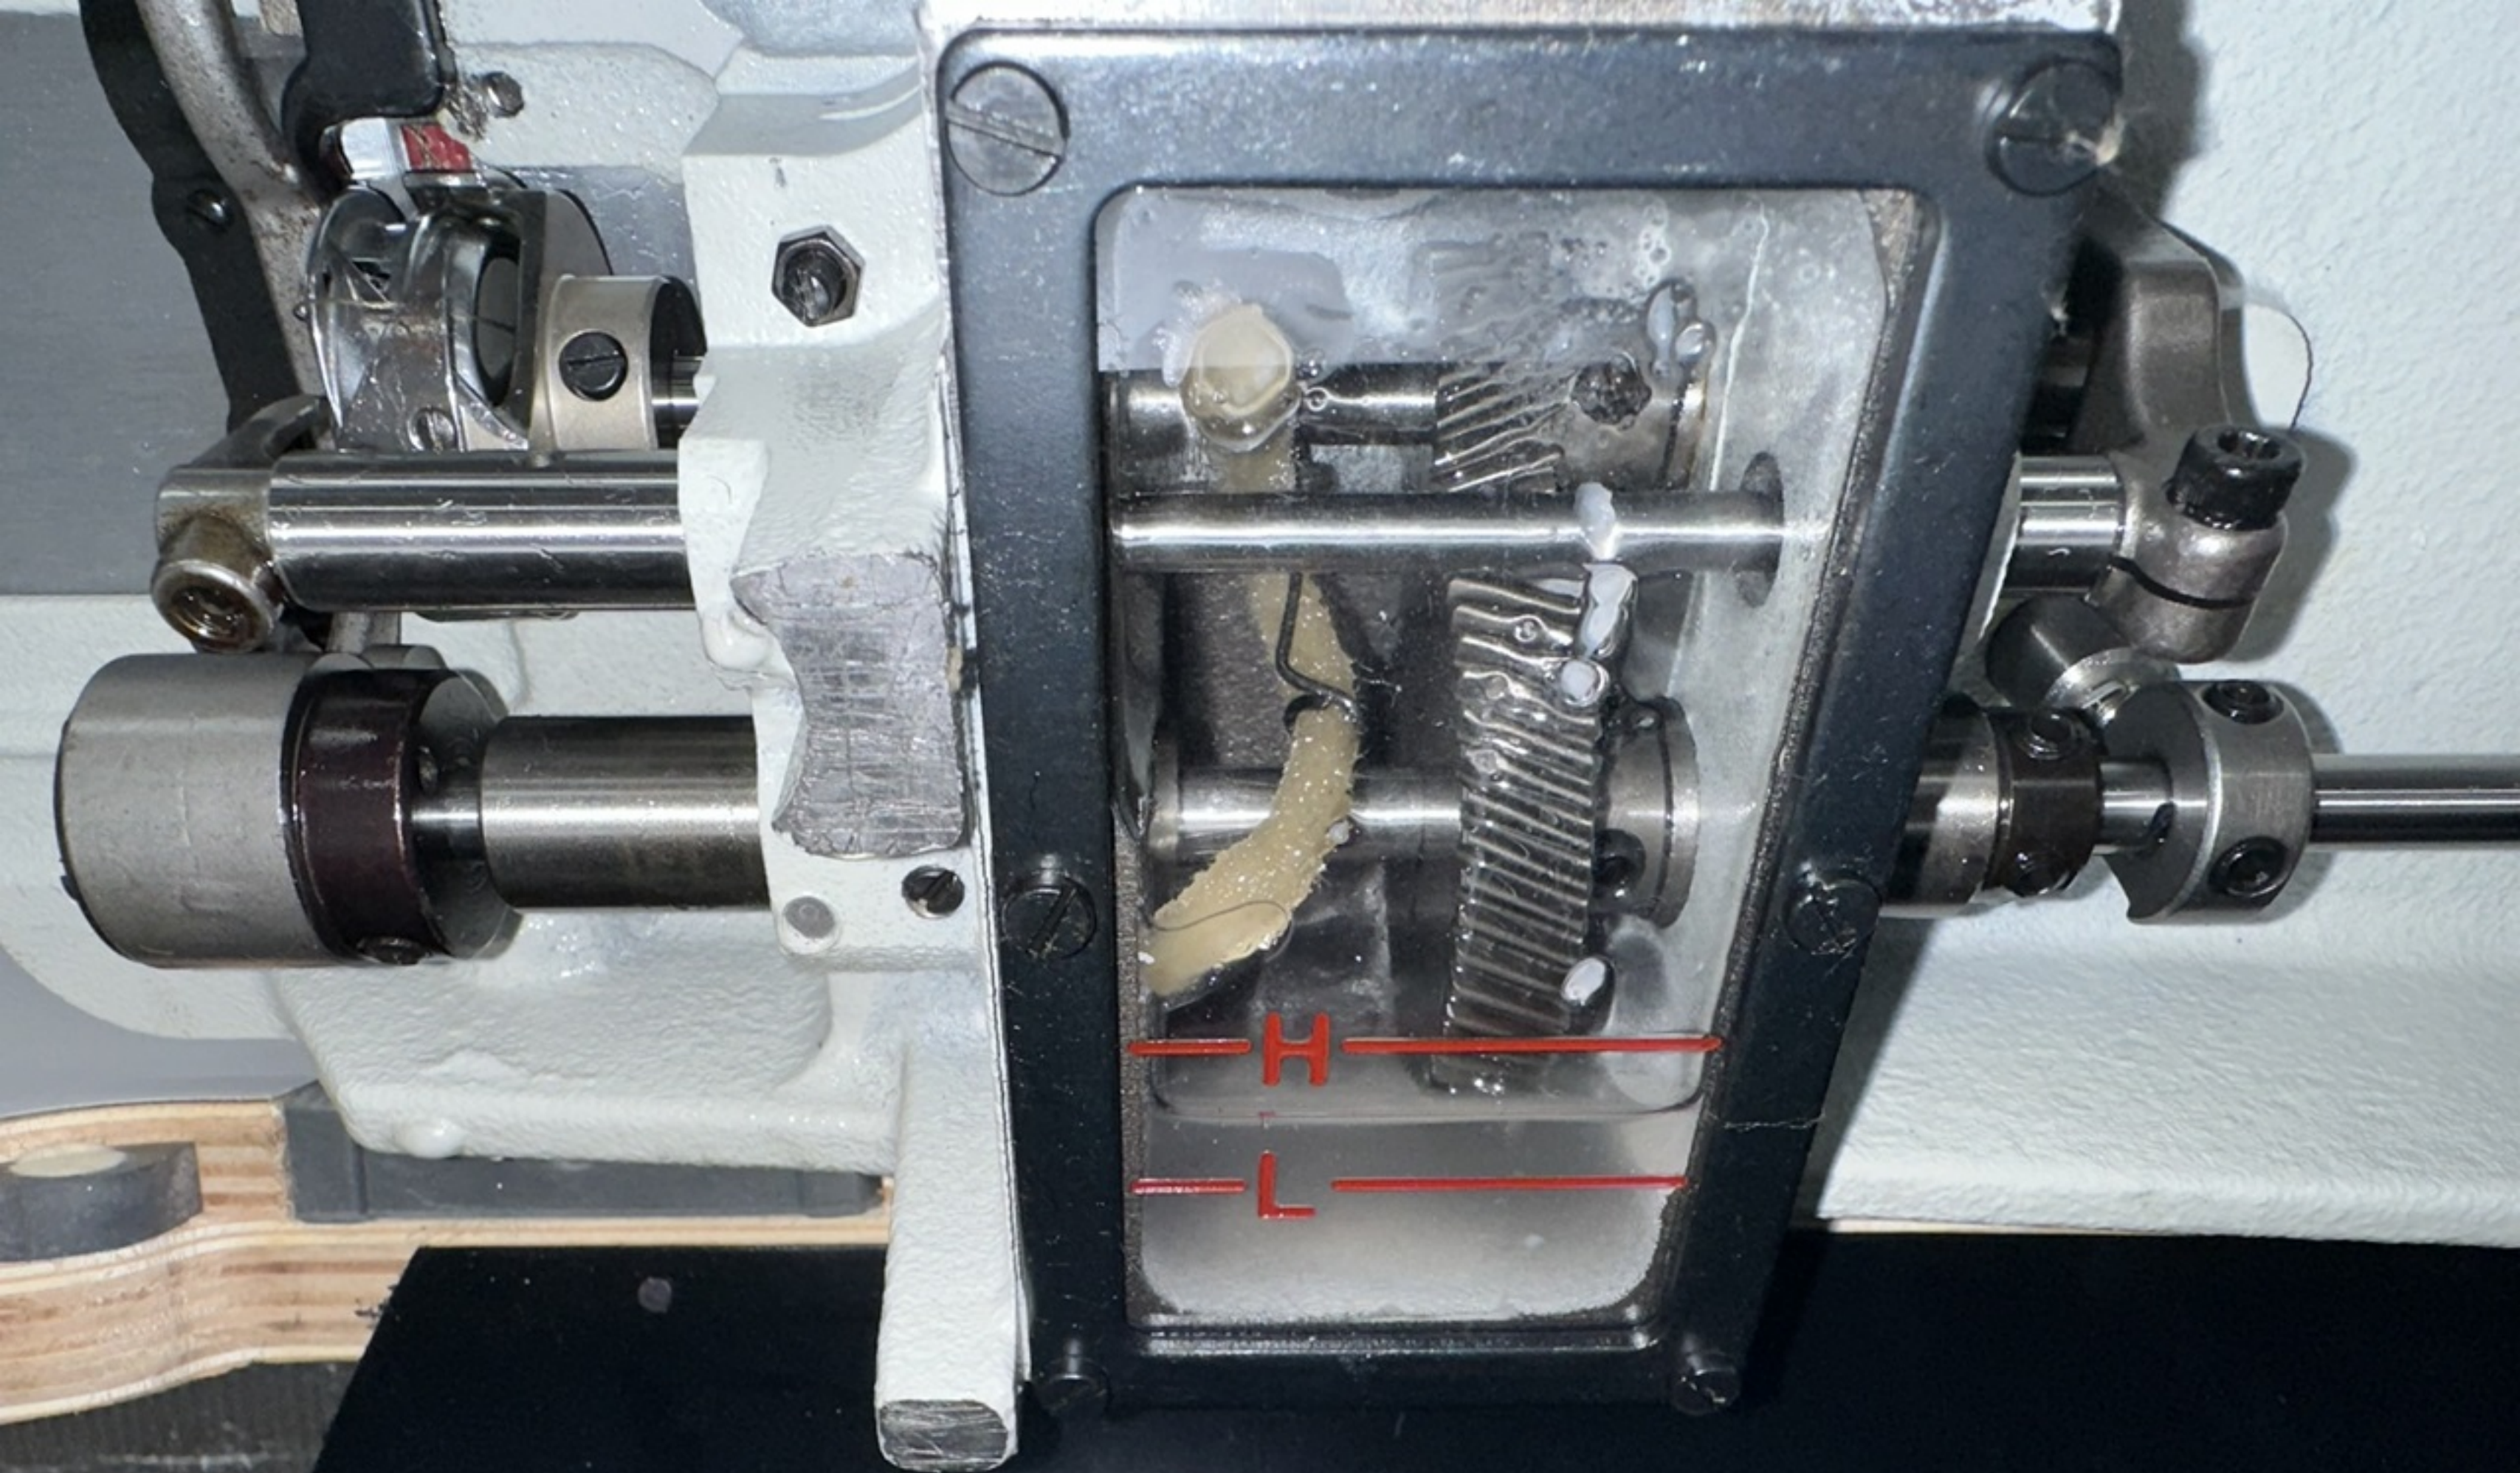

A detailed view of an industrial sewing machine mounted on a sturdy metal stand. The machine is light grey with a white table top. It features a complex mechanism with a needle and foot assembly, a foot lifter, and a tension control knob. A small, rectangular, light-colored box is attached to the side of the machine. The stand has four legs and a horizontal crossbar. A power cord is visible on the left side of the machine. The background is a wall with a textured, metallic appearance.
