Automated Fitting and Sewing Integrated Machine.
For Seat Belts and other types of webbing products.

ADVANTAGES

One machine has multiple functions and can be used as a tape cutting machine through simple adjustments. Two cutting modes, cold cutting and hot cutting can be switched according to actual needs. Adjustable deviation correction function, accurate positioning before sewing, to ensure that the sewing ribbon head is neat and beautiful. Stepless width and narrow device (patented product), quickly adjust the feeding width. Keep the webbing centered at all times. Self-testing function, timely detection of faults and hidden dangers, providing fast and accurate service for maintenance.

APPLICATION

Suitable for folding and sewing all kinds of belts and tape heads.

Model	CS430D-ATF-A	Voltage	AC 220V 50Hz
