CS-288TD

Automated Pocket Attaching Machine

Collier Equipment
100 Mill Creek Circle / PO Box 175
Lexington, AL 35648
Ph: (256) 229-6595 Fx: (256) 229-6779

ADVANTAGES

The CS-288TD automated pocket attaching machine is specially designed for precise pocket sewing on shirts, jeans and other fabrics. It delivers excellent handling for soft, elastic, and smooth fabrics, helping manufacturers achieve stable and consistent sewing quality.

APPLICATIONS

Suitable for jeans, knitwear, workwear, leisurewear, military uniforms, back-pocket sewing, and related pocket attaching processes. It can also sew pocket flaps at the same time, depending on the configuration.

- Key Features -

Excellent Fabric Control
Outstanding sewing performance for soft, elastic, and smooth materials.

Brother KE-430HS Sewing Head
Equipped with a reliable Brother KE-430HS stitch machine head.

Quick-Change Style Kit
The Style Kit can be changed quickly and is compatible with both thick and thin fabrics.

Intelligent Operation
Computer program control with servo and pneumatic drive ensures easy operation and stable performance.

Machine Model	**CS-288TD**
Machine Head	**Brother KE-430HS**
Production Capacity (per hour)	**240 - 300 / hour (depending on pocket size and stitch quantity)**
Hook Type	**Shuttle Hook**
Max Sewing Range	**240 x 280 mm**
Min. Sewing Range	**40 x 40 mm**
Max. Speed	**3,600 spm**
Stitch Length	**0.1 - 12.7 mm**
Machine Size	**173 x 154 x 160 cm**
Crate Size	**180 x 160 x 176 cm**
Weight	**450 kg**
G.W.	**590 kg**
Working Voltage	**AC 220V**
Working Air Pressure	**5 bar (low air pressure alert below 5 bar)**
Air Consumption	**230 L/min**
